

Trends in blackcurrant production & crop protection, quantity or quality?

IBA conference June 2018 Angers, France

Miroslaw Korzeniowski, PhD, Bayer

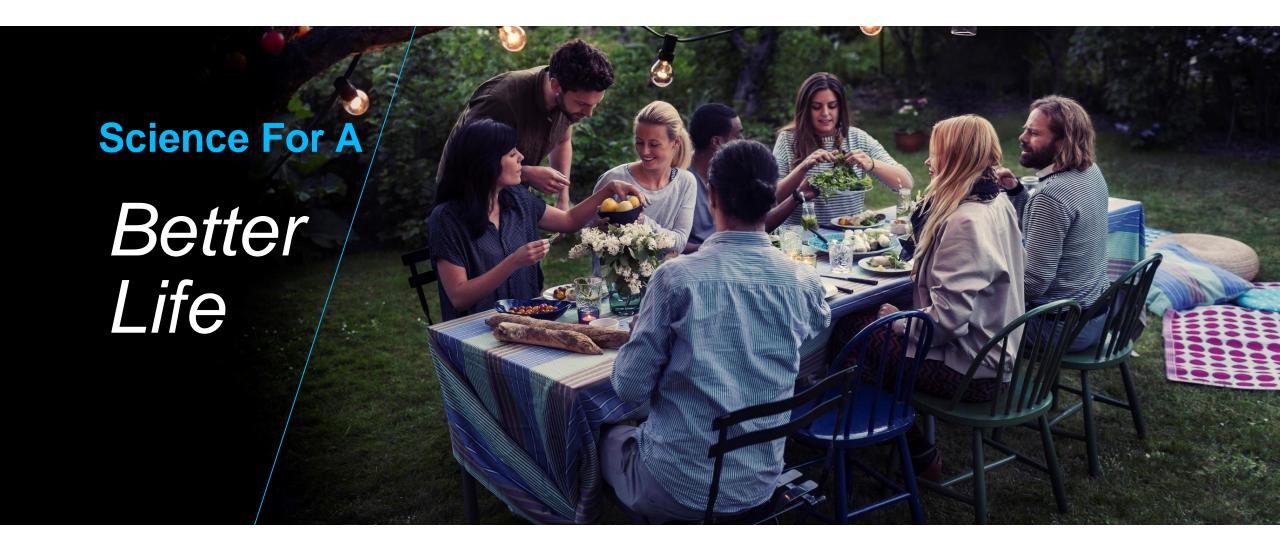

Piotr Baryła, PhD, UP Lublin

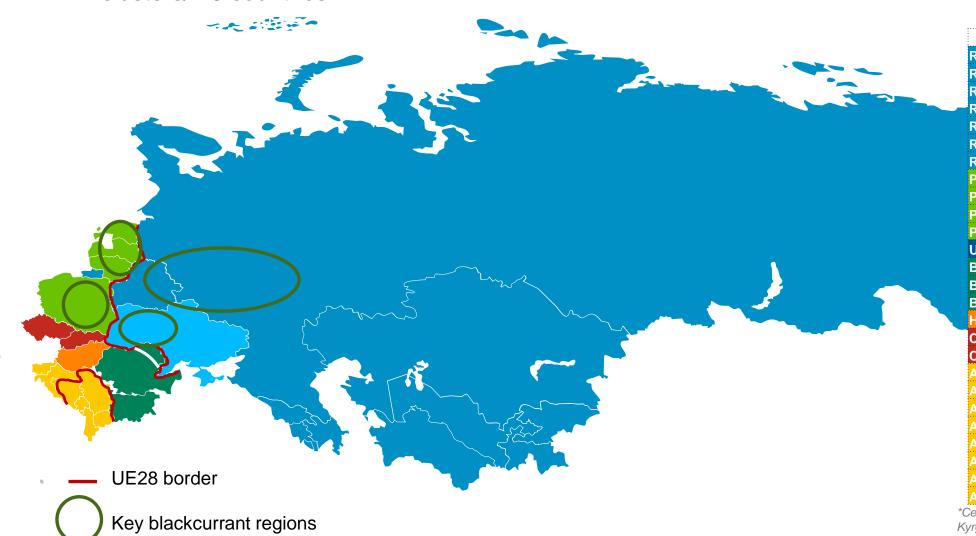

Our mission

EMEA3

7 clusters/ 29 countries

Cluster	Country
Russia / KZ / BY	Armenia
Russia / KZ / BY	Azerbaijan
Russia / KZ / BY	Belarus
Russia / KZ / BY	Central Asia*
Russia / KZ / BY	Georgia
Russia / KZ / BY	Kazakhstan
Russia / KZ / BY	Russian Fed.
Poland / BAL	Estonia
Poland / BAL	Latvia
Poland / BAL	Lithuania
Poland / BAL	Poland
Ukraine	Ukraine
Bulgaria/ Romania	Bulgaria
Bulgaria/ Romania	Moldova
Bulgaria/ Romania	Romania
Hungary	Hungary
CZ SK	Czech Republic
CZ SK	Slovakia
Alpe Adria	Albania
Alpe Adria	Bosnia & Herzegovina
Alpe Adria	Croatia
Alpe Adria	Kosovo
Alpe Adria	Macedonia
Alpe Adria	Montenegro
Alpe Adria	Serbia
Alpe Adria	Slovenia

*Central Asia:

Kyrgyzstan; Tajikistan; Turkmenistan; Uzbekistan

Blackcurrant market key countries Central and East Europe

- **// Russia**
- // Ukraine
- // Poland

New trends in fruits production NFC Juice/ Cider/ Beer/ organic production/ BIO

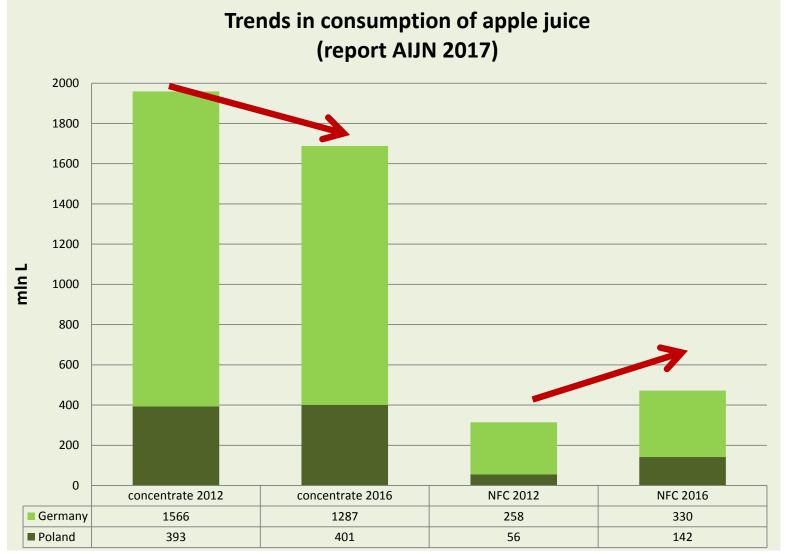

New trends in juice consumption NFC juice vs. apple concentrate

Blackcurrant in UA, BLR, RUS

General info:

// Total area? Open question, major part non proffesional production for farmer needs only (дача)

Opportunities:

- // Well known fruit, growing demand for high quality healthy fruits
- // Local varieties suitable for fresh consumption and for home made juice, jam.

Risks:

- // Increasing competition from other berries: raspberry, blueberry, others
- // Limited number of registered crop protection products (chemical and non-chemical)
- // Lack of manpower for manual harvest

ПАРТНЕРСЬКА ПРОГРАМА 3 ТОВ "ФРУКТОВИЙ ПРОЕКТ"

ТОВ "ФРУКТОВИЙ ПРОЕКТ" запрошує постачальників ресурсів взяти участь у ПАРТНЕРСЬКІЙ ПРОГРАМІ навчально-практичного тренінгу

МАЛИНА, ОЖИНА, СУНИЦЯ: КРАЩІ ПРАКТИКИ ВИРОШУВАННЯ

м. Житомир, 14 червня 2018 року

тренінгу візьмуть участь представники провідних сподарств-виробників плодово-ягідної продукції з

Тренінг проведе міжнародний консультант з вирощування ягідних культур Джеремі Дарбі

Blackcurrant in Poland

General info:

Total area 35 000ha, mainly for processing

Opportunities:

- Segmentation: IQF, fresh consumption, best quality fruits, organic
- // Certification
- // Local brands

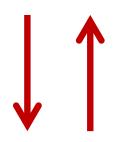

Risks:

- // Increasing competition from other berries: raspberry, blueberry, others
- // Decrising consumption of blackcurrant juice
- // Lack of manpower for manual harvest

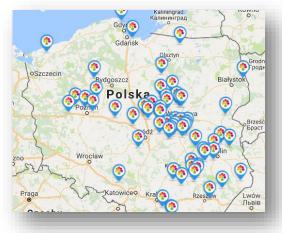

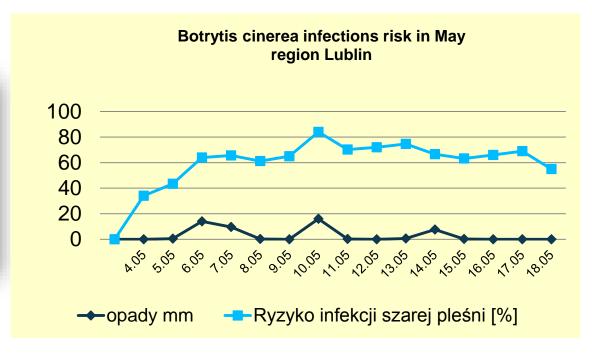

B A BAYER E R

Good practice examples: Decision Support Tools

Horticonect Romania

Gazda Info Hungary

Good practice example: Stewardship & risk minimalization

Good practice example: Food Chain collaboration

food chain partnership

Crop Specializm & Partnering

Fair, Conferences and demo status 2018

Cluster/country

National conferences & demo arenas

- # Fruit Competence Center POL
- // National Blackcurrant Day POL
- # Bayer Horti conferences (BEL, POL, UA, RUS)

Strategic goal: Leading Bayer position in collaboration with farmers, scientists and food processors

Bayer sustainable solutions in blackcurrants (2019+) (Sivanto, Requiem, others...)

pests:

diseases:

Comments:

- ★ Number of applications depends on pest and diseases pressure
- ★ First year of sales depends on EU and country registration process

Collaboration & Trust!
